JUNIOR HANDLING

Taking part is the most important thing for the junior handling classes and all participants will be given time and consideration irrespective of their level of experience and skill. All handlers will be asked to present their dog to the judge, stand it, show its teeth, walk it away and back, walk it around the ring, trot it around the ring and answer simple questions about their dog and the basic points of a dog. The judge will be looking for teamwork between dog and handler, attention to the judge and steward's instructions and handling skills.

The junior handlers will be assessed by the judge individually in the morning at the allotted time in Ring Three. Junior handlers will be called to the main ring for judging as per the class in the schedule.

6-11 years – 10am Saturday morning

Each handler will present one dog.

Each dog will be measured by the judge and the handler should understand how to present the dog for this.

12-16 years – 10am Sunday morning

Each handler will present one dog.

Each handler will be asked to do one lap of off lead gaiting during their individual assessment – if their own dog is not trained to do off lead gaiting there will be suitably trained and friendly dogs available for them to have a go at this exercise.

Each dog will be measured by the judge and the handler should understand how to present the dog for this.

A gun test will be carried out at the start of the final judging when all handlers are present – if any handler has a dog under 12 months that they do not wish to present for the gun test they should advise the steward.

A detailed program of events will be included in the catalogue

It is our aim to ensure the show runs as efficiently as possible without any long delays between judging and finishing at a reasonable time. All classes will be completed in the order of the catalogue. Any exhibit not present for the gun test for their class will NOT be allowed to compete in the class – gun tests will not be repeated for individuals.

All Dogs MUST be identifiable by MICROCHIP

**IDENTIFICATION CHECKS WILL TAKE PLACE IN THE RING AT THE START OF THE CLASS.
THE HANDLER / OWNER SHOULD BE AWARE OF THE POSITION OF AN EXHIBIT'S MICRO-CHIP.

Section B: Courage and Protection Test

REGULATION REQUIREMENTS WUSV UNIVERSAL STANDARD

COURAGE TEST – APPLICABLE TO ALL DOGS SUBMITTED FOR CONSIDERATION OF AN 'EXCELLENT SELECT' TITLE.

In compliance with WUSV regulations pertaining to the awarding of the distinctive 'Excellent Select' (VA) title offered under controlled circumstances in shows other than the SV main breed show the following tests will be required of adult dogs and bitches over twenty four months of age and entered in the open classes scheduled for working dogs

This test is here outlined

Phase A:

Before entering the test area the dog's micro-chip number is examined and verified.

1. The dog and handler will proceed to the marked starting point they take a couple of steps, with the lead still attached to the dog.
2. The dog is placed in the basic position (sitting), the lead is removed and the handler and dog walk towards the area where the helper is hiding. As they approach the hiding place, upon a signal from the judge the helper comes-out and moves towards the dog in a threatening manner. The dog is required to grip the helpers protected arm, and once the helper stops his resistance the dog should release automatically or alternatively release the grip when given a command by the handler to 'out'. Upon releasing, the dog is required to stay close to the helper and remain in a guarding mode. In all instances the handler is only allowed to give three 'out' commands.
3. The handler takes his dog and leads him to the new starting point for the commencement of the next exercise

Phase B:

1. The dog and handler takes up the basic position at the marked location. The dog must be under effective control in the basic position (sitting). The handler may hold the dog by the collar until the judge indicates the helper to come out. In response the helper leaves his hiding place and walks parallel to the handler and dog.
2. When the helper reaches the centre of the field, the judge will indicate for the helper to run towards the handler and dog in a threatening way.
3. On a signal from the judge the handler will let go of his dog and the dog must run towards and stop the helper by gripping the protected arm. Just as in the previous exercise, the dog may release automatically at the cessation of the conflict or may be given a command to 'out'. The dog is required to stay close to the helper in a guarding mode. The handler must stay in the starting position until indicated by the judge and will then approach the dog, attach the lead and in an orderly fashion return with the dog to the reporting area to await the judge's comments. As in the previous test (A) when a verbal command is used to affect a release by the dog – only three (commands) opportunities are permitted.

EXPLANATION OF TEST RESULTS

1. Dogs with a "pronounced" courage rating and that release automatically or upon command, guard effectively and remain under control will be the only ones eligible to proceed to the next stage for consideration of an "Excellent-Select" rating in the open class. A pass in this phase does not automatically guarantee a 'VA' title.
1. 2. Dogs which receive a courage rating distinction in the 'Existing' category shall be ineligible to proceed to receive a 'VA' -
2. 'Excellent Select' title. However the dog shall still remain eligible to be considered for the high rating of 'Excellent' – this is however completely at the discretion of the officiating judge.
3. Dogs which do not remain at heel with their handler three times during the transport phase will be ineligible to take part in any further conformation evaluation or rating process with the show.
4. Dogs which grip any other part of the body other than the protective sleeve or do not release the grip after three commands shall be considered to be - effectively out of control and may be dismissed from the courage tests and shall be ineligible to take part in any further conformation evaluation or rating process associated with the show.
5. Dogs which grip effectively and demonstrate a willingness to let go but do not remain guarding the helper in convincing and effective mode shall be ineligible to take part in any further conformation evaluation or rating process associated with the show
6. 6 Dogs which exhibit poor nerve condition, show obvious fear or who avoid contact with the helper in the courage test, or who explicitly lets go and runs away (avoidance) on the stick test shall be dismissed immediately and there after remain ineligible to take part in any further conformation evaluation or rating process associated with the Show.

Provisions for the Helper to assist the judge.

- The helper assigned to assist the judge during the courage test evaluations must be a licensed GSD League/BAGSD IPO/WDB/WUSV helper with trial assistant experience and have an understanding of the testing and selection regulations.
- The work must be carried out in strict accordance with the testing regulations as contained in the SV/WUSV Breed Survey.
- The helper must at all times work under the direction of the officiating judge and may not save by implicit instruction from the judge carry out any action not prescribed/permitted in the regulations. This means that in instances when a dog fails to let go, runs away or otherwise exhibits negative responses the helpers reactions are dictated by the judge. This also applies to rewarding failing dogs with a sleeve win.
- The helper is required to use appropriate and properly fitting protection wear – this is specified as regulation scratch overalls and a matching jacket with an opposite protected sleeve. The padded arm for the test must be of a reasonably good quality with the jute cover having previously been broken-in. There must be no loose fabric or damaged areas which could cause the dogs teeth to snag. The padded stick must be of a flexible type (regulation).
- The equipment of the helper is finished-off with suitable training shoes with studs or grips so as to ensure steadiness in all phases.

Please note: the details provided above are explicitly intended to apply only to the courage test as per the international guidelines. To establish eligibility to submit a dog for consideration for a VA title and as a precursor to being allowed to take part in these working tests there are several other criteria that must be met in full. Exhibitors intending showing dogs in the British Sieger Event are strongly advised to familiarise themselves with the regulations. This test should not be confused with the requirements required for Schutzhund/VPG/IPO trials
